

# REPO | SYSTEMS

Facts & Information

For Lenders

“Gotcha!”

# REPO | SYSTEMS

Facts & Information

Our philosophy is extremely simple:

We provide you the tools to be successful in your collateral recovery.

## Who is RepoSystems?

---

**RepoSystems** is a management and communications tool for the collateral recovery industry. "Lending Institutions" and "Recovery Agents" can communicate in real-time to enhance productivity, efficiency and accuracy in the recovery of the collateral. Our system provides an end-to-end collateral recovery solution that automates the repossession process from assignment and recovery, to disposition.

**RepoSystems key benefits include:**

- Overhead substantially reduced
- Redundant data entry eliminated
- File processing costs reduced
- Telephone time greatly reduced
- Processing capacity increased
- Assignments quickly processed and dispatched
- Efficiency gains direct to bottom line

We don't believe an agent's lift or repo truck vendor should be dictating what they should receive for "picking up" a unit, NEITHER should the camera provider or their software provider!

We aren't a middleman to take a piece of the agents income, or an organization to tell them what to charge you, the client.

## What does RepoSystems provide?

We provide the hardware and software for successful LPR scanning and historical license plate searches.

As a Lender subscriber of RepoSystems you enter your assignments and assign accordingly to the agents you use normally or enter into the LPR pool for LPR agents to search.

Historical Searches for agents to review patterns of a units travel, if it has been scanned by one of our LPR units.

Integrated Skip Trace tools with our acclaimed 3<sup>rd</sup> party skip tracing technology provider.

**“One Stop Shop” for the complete management, skip tracing and LPR solutions**  
– reduces the time to manage the repossession process resulting in getting **YOUR** collateral recovered in a more expedient manner.

## What Sets RepoSystems Apart?!

---

**We do NOT charge LOCATE fees to either the Recovery Agent OR Lender.**

**We do NOT charge a FEE to ANY Lender who utilizes the basic services of RepoSystems.Com** – this includes the LPR Services.

We have both DIGITAL TO DIGITAL and ANALOG LPR Solutions available.

Less cost to operate on both the software management and LPR tools.

Technical Support calls or emails are answered ASAP!

Completely Portable LPR Solutions, there is no need to “alter” the vehicle.

No LONG TERM contract, or EXCLUSIVITY contract for either the Lender or the Recovery Agents

In short, we make our money on the subscription fees, skip trace fees and the LPR Camera sales. We don't try to take a portion of the fee that should be going to the recovery agent...they deserve all that they get!

## Introducing the Digital LPR 2.0

If an LPR agent receives a positive “hit” on a tag or license plate that you have entered into the system:

- a) If you have arranged for auto assignment, unit will be auto assigned to the agent, they will need to just follow the on screen directions and pick up the unit.
- b) If you need manual approval, lender contact information will be provided to the agent immediately onscreen. The agent will then need to contact the lender to negotiate the repossession arrangements.

### Included in the LPR solution:

- ToolBox and Computer
- LCD Touchscreen & Mount \*  
or Standard Notebook  
Computer without mount
- Cameras
- LPR Software
- GPS Antennae
- Magnetic Mounts
- All Necessary Cables &  
Power Cords

\* Depends on Choice made or model sent at RepoSystems decision.

## RepoSystems Digital LPR 2.0 Pricing and Financing Options

Our solution is one of the least expensive to operate for a Recovery Agent. We have many financing options available to the agent, and if they need additional assistance after attempting conventional financing methods through our network of resources, we can “In House” finance them with the following options (upon approved credit):

	2 Cameras	3 Cameras	4 Cameras
Retail / Financed Amount	\$7,992.00	\$8,859.00	\$9,726.00

If the agent would prefer to do a layaway – we offer the Cash Discount Pricing in 4 Payments of:

	2 Cameras	3 Cameras	4 Cameras
Layaway Down and 3 additional payments	\$1,498.50	\$1,661.06	\$1,823.63

**Cash Discount**

2 Camera System \$5,994.00 \*\*

3 Camera System \$6,644.25 \*\*

4 Camera System \$7,294.50 \*\*

Call our LPR Sales Department at 972.501.0375 x 1007

\*\* Not Valid if choosing a Financing Option.

## Need Tag or License Plate Information from your VIN?

---

### Introducing VIN2PLATE Service

ANY License Plate Recognition system needs License Plate data. We have the ability to provide you with the data, internally from RepoSystems. Just click on the “Request License Plate” checkbox while entering the repossession order or editing the vehicle information section and you will be provided the data on a regularly scheduled basis.

**This service is optional and not required. However, the ability for you to locate your repossession by LPR is IMPOSSIBLE without a License Plate!**

For each request you make, you will be charged 50¢ (\$0.50) deducted from your RepoSystems Wallet.

If we do not get a positive result on the License Plate search, your RepoSystems Wallet will be refunded the amount automatically.

For each request over your tier pricing, you will be charged the “Price Per Search”, deducted from your RepoSystems Wallet.

Call for more information 972.501.0375 x 1005

## In Summary

---

We are committed to providing the best possible solutions to both the recovery agent and lender.

We have made a commitment to our Recovery Agent subscribers that we will NEVER own or have partial ownership in another repossession company, forwarding company or skip tracing organization. This provides the recovery agent a level of comfort knowing that they do not have to worry about ANY information they enter into the system being used to recruit for another company or to the unethical interest of RepSystems.Com Inc.

We know you have a choice and hope that you consider us as a viable option.

We firmly believe that, as a Lender, you should use EVERY resource that you may have and would be happy if RepoSystems was one of those choices.

Remember, it is a NO COST solution for you.

Thanks  
Rob and the rest of the RepoSystems Team
